

COVID BACK TO WORK MANAGEMENT SYSTEM

The Tiger Safety COVID Back to Work Management System provides procedures and processes to methodically examine facilities, offices, and other work environments to determine the level of risk for infection when sending employees back into the workforce. The Tiger Safety system then delivers and implements an effective list of controls recommended by the CDC and OSHA to mitigate risk factors and maintain control effectiveness. PATENT PENDING 9/2020

1 ESTABLISH CLIENT EXPECTATIONS

Tiger will meet with the client to establish expectations with a tailored COVID Management System.

2 EMPLOYEE SCREENING

Tiger will perform an initial antibody test and health questionnaire for all employees entering the facility.

3 EMPLOYEE CLASSIFICATION

Employees are identified by level of risk.

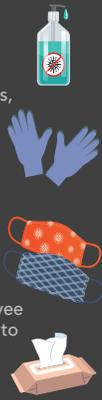

REGISTER & BADGE

- + Antibody** → Tiger issues **GREEN** badge to employee. No further testing/screening for facility access is required.
- Antibody** → Tiger issues **YELLOW** badge and continues observation/scanning.
- High Risk** → Tiger issues **ORANGE** badge to all employees deemed "High Risk" by employer/self based on questionnaire.

4

TRACKING & SUPPORT

Tiger will maintain hygiene awareness & disinfecting accessibility at entrances, work stations, break rooms, bathrooms, locker rooms, elevators, etc.

Tiger Monitors will maintain and provide:

- Hand sanitizing stations
- Glove distribution
- Mask distribution
- Sanitizing wipes

Tiger Monitors will check employee credentials at coming and going to insure PPE is being used as necessary, direct traffic, and enforce social distancing.

8

ENTERING THE WORKPLACE

Personnel go through the **Tiger Sanitation Tunnel**.

Employees report to designated entrance, present badge and number to Tiger Technician for monitoring.

7

5A IDENTIFY SYMPTOMATIC EMPLOYEES

Tiger's CDC & FDA approved thermal scanner pulls "HOT" employee for further screening.

APPROVED WORK AREAS

Tiger will establish and maintain approved work paths and areas.

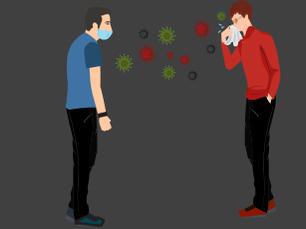

Designated entrances will be defined with Tiger technicians for badge monitoring.

6

5 HOT EMPLOYEE ACTION

All "HOT" personnel are sent home or to MD.

5 TIGER TESTING

Tiger Testing performs COVID test.

5

9 ACCESS

Employees report to designated entrance, and present badge and number to Tiger Monitor for tracking.
